EDUCATION

Grade 12 Student | Currently Enrolled
Pursuing cybersecurity and web development skills while completing secondary education

---

CYBERSECURITY TRAINING & CERTIFICATIONS

Cybersecurity Fundamentals Course | GeezSec Security Testing
Self-paced learning in security fundamentals, penetration testing methodologies, and ethical hacking principles

---

PROJECTS

E-Commerce Platform | Full-Stack Web Development
Built a complete e-commerce website using HTML, CSS, JavaScript, React, Python, Django, and PostgreSQL. Implemented product catalog, shopping cart, user authentication, and payment integration features.

School Attendance System | Full-Stack Web Development
Developed a web-based attendance tracking system for educational institutions using full-stack technologies, demonstrating proficiency in database design and user interface development.

Multiple Websites | Web Development
Designed and deployed several websites showcasing skills in front-end (HTML, CSS, JavaScript, React) and back-end (Python, Django, PostgreSQL) development.

TECHNICAL SKILLS

Cybersecurity & Networking:

- Network Reconnaissance & Analysis (Wireshark, Nmap, Netstat)
- Penetration Testing Tools (Metasploit, Burp Suite, sqlmap, John the Ripper)
- Web Application Penetration Testing (OWASP Top 10, SQL Injection, XSS, CSRF)
- Network Hacking & Security Assessment
- Vulnerability Scanning & Exploitation
- Linux Fundamentals
- Windows Fundamentals

Web Development:

- Front-End: HTML, CSS, JavaScript, React
- Back-End: Python, Django
- Databases: PostgreSQL
- Full-Stack Development

Programming Languages:

- Python
- JavaScript
- C++
- Bash Scripting

LANGUAGES

Oromo (Native), English (Fluent)

INTERNSHIP INTEREST

Applying for Jr. Penetration Testing and Web Development positions to gain hands-on industry experience, work on live projects, and advance skills under expert mentorship.
